

# How it works?

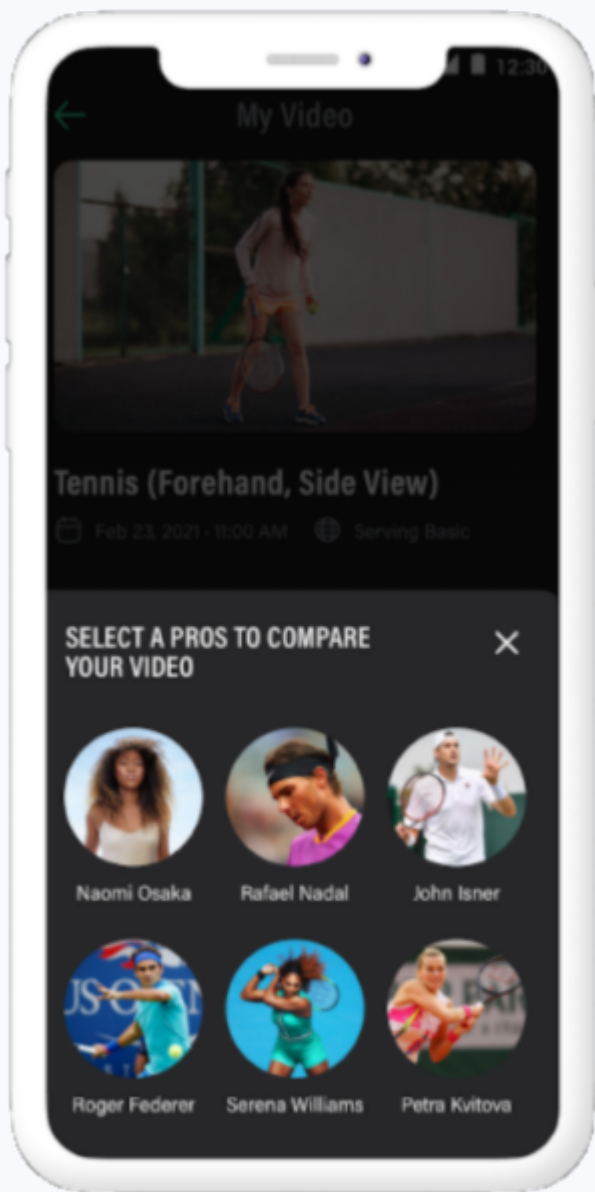

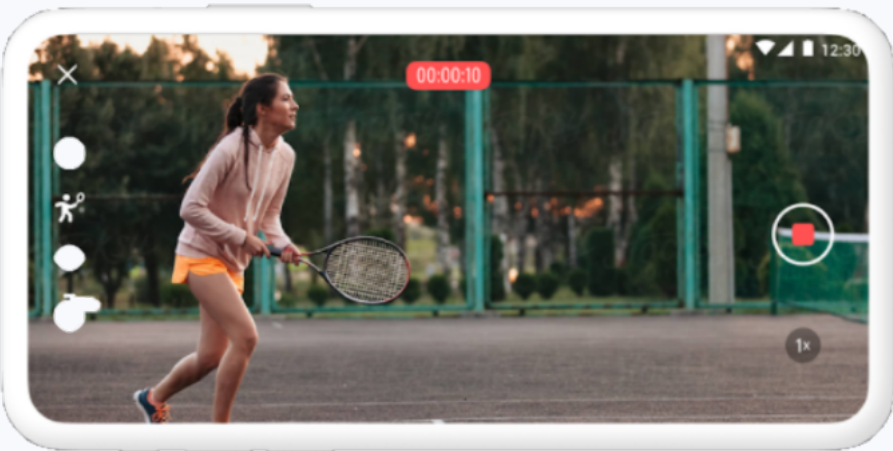

Making coaching accessible in 3 step

## Record

learning while playing

Profiling the player to understand if their details for personalizing technique like right or left handed, height, beginner or intermediate or advanced.

Recording your video of the stroke you want to learn. This can be captured while playing or practicing the stroke.

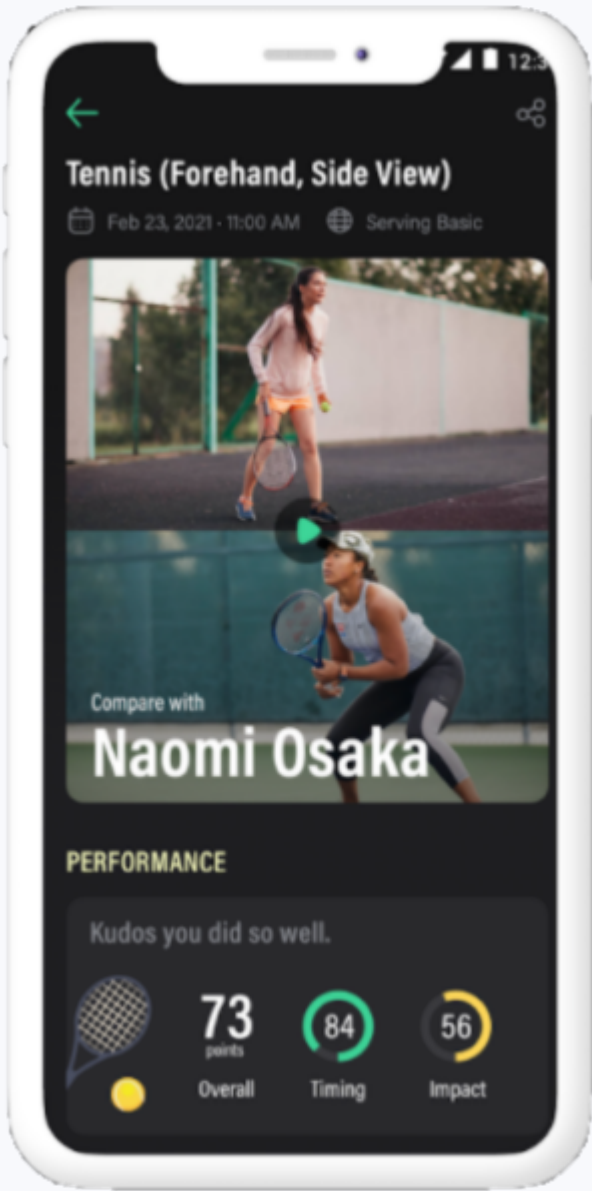

## Select

learning with the pros

Select the player to compare the stroke with.

You can select from the wide range of professional and celebrity players. You can choose the player based on the stroke you are trying to learn or master.

## Compare

playing like pros

Slamdunk will place the videos side-by-side and let you watch the strokes together.

This allows you to compare the stroke frame byframe and understand the difference in technique and correct it to learn the stroke.

# Analyse

playing like pros

Slamdunk will place the videos side-by-side and let you watch the strokes together.

This allows you to compare the stroke frame byframe and understand the difference in technique and correct it to learn the stroke.
